4. Affiliate marketing

Here is another way you can cash out 90k

On WhatsApp in just 30 days.

Affiliate marketing is one of the easiest

Ways to make money on the Internet right

Now.

The easiest way to do affiliate marketing is

To find a product that sells and approach

The creator that you want to sell it for a

Profit

It is hard for any creator to tell you they

Don't want affiliates

There are also affiliate platforms

Warrior plus.

Jvzoo.

These are foreign sites that accept

Nigerians

Nigerian affiliate sites include..

Expertnaire and Learnoflix

I am an Affiliate with expertnaire and I

Make good money from it..

And I also have my own personal affiliate

That I pay almost every week...

You should have seen some of my alerts

When I sent it to the group...

These sites have digital products you can

Sell for a commission.

Sir, You don't have to be a commissioner

To earn affiliate commissions 😁😁.

Other ways to make money online most

Especially on Whatsapp is

5. Mentorships.

This one is very short..

As you grow in influence and impact,

Some persons will come for mentorship

You can't mentor everyone for free.

You can have a standard fee.

6. Social media management.

Manage people's Facebook, Instagram

And Twitter and charge them for it

If you are always online, then use it to

Make money online.

Most CEOs are busy and need people to

Manage their business social media pages

Let's continue...

Another way to cash out at least 90k

On WhatsApp in just 30 days..

7. INFORMATION MARKETING.

I also used it to raise 158k for my new

Phone I bought for my NEW Whatsapp

Tv...

The simple formula to work this business

Is:

a) LEARN: Learn a skill (An High

Income skill)

Like Whatsapp Marketing

b) BUILD: Build an audience on any

Platform (I recommend WhatsApp

Because it is very easy)

Though I built my own audience on

Different platforms like Whatsapp,

Facebook, Telegram etc..

c) TEACH: Offer to teach your

Audience the skill for a fee,

Monetize it..

Imagine if you learn a skill and decide to

Do class on it and charge 10k

If 10 people pay, that's 100k already o....

This is me dropping some premium

Update for you...

8. WHATSAPP TVS BUSINESS

I like this very much...

Simple, Download WHATSAPP Business

Create an account, Give your TV a name..

Make a good logo like this

..Then **BUILD YOUR AUDIENCE**

To do this, simply create a free group and

Ask people to save your number....

Always share funny memes with your tv

Tag name....

Keep growing.... When you have like 500

Views and above...

You can start monetising it....

Even if it's 1k for 24hrs it's something...

You see WhatsApp tv is very

Lucrative..

Listen and listen well..

Lemme give you more details on

WhatsApp tv

The reason I love this business is because

Of two reasons.

1. You don't need any capital for a start

(although starting with a capital will help

You grow faster) you will need small

Capital for branding and generating leads..

2. You will surely make money from this

Business if you can grow it because there

Are many businesses out there that will

Pay you.

What is a WhatsApp TV?

WhatsApp TVs are entertainment or

Education channels on WhatsApp that

Upload text and video content on their

Status to engage their audience.

The major way to make money from

WhatsApp TV is by placing adverts for

People on your status or groups

You basically need to just find a way to

Build your status views to a reasonable

Number and then start charging, people

Will pay.

I started collecting adverts when my

WhatsApp status views was 500 and today

I have average of 4000 views in just one

Of my WhatsApp tv ([7hubent Media](#))

I charge nothing less than 5k to post on

My status and 10k to 15k to post on my

Groups and channels..

And I receive ads every single day,

Because my advert for your business WILL convert like magic.
